United Medical Partnership For Children (UMPC)

Children with no insurance are less likely to receive proper medical care which often leads to excessive

absences from school. The UMPC was formed more than 20 years ago and is a unique program provided by UWBC that enables under-insured and un-insured children in Baldwin County public schools to receive proper medical care. By keeping children healthy, we keep children in the classroom and on a pathway towards success.

First Steps

First Steps is a UWBC program that partners with local pediatrician offices to promote early literacy and healthy eating. This is accomplished by putting age appropriate books in the hands of children at every well visit from ages 6 months to 5 years old. In addition to books, each child receives a pre-school sized portion plate and activity book that promotes healthy eating at their 18 month check up. This program provides the ability to introduce the first steps of literacy and healthy eating to a child from their first steps in life.

Summer Reading

In an effort to bridge the literacy gap in summer months, UWBC brings summer reading programs to children in youth clubs across the county. We do this by providing high quality hard back books that children read at summer camp and then take home to keep. Teachers work with each student with an approved curriculum to ensure reading comprehension.

2-1-1

Created in 2007, United Way 2-1-1 has been the nation's premier referral source for those seeking health and human services information. A trained specialist is on hand 24 hours a day to provide confidential referrals for community services to individuals in need of assistance.
